

How to Reset to Default Settings in Google Chrome

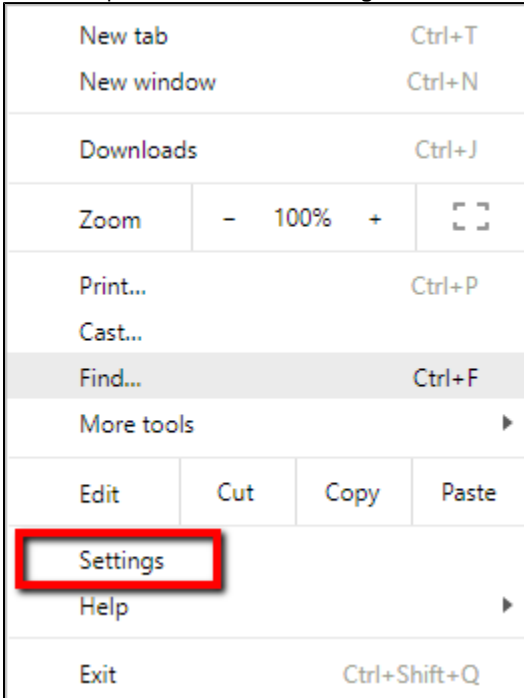

If your web browser has too many issues, you can delete all settings and reset it to default.

Step-by-step guide

1. In the top-right corner, click the menu button.

2. On this drop-down menu, click **Settings**.

3. On the settings page, scroll down to the bottom and click the **Advanced** drop-down menu.

4. Then, scroll to the bottom again and click **Reset**.

5. This will bring up a window asking you to confirm that you want to reset all browsing data. Click **Reset**.

You have now successfully reset your data to default in Google Chrome!
