

# How to Set Up & Use VPN on an iOS Device

## VPN Access

### VPN Access

Access to the VPN is assigned to those who require it for a university business or academic function. To request access, send an email to [InformationSecurity@missouriate.edu](mailto:InformationSecurity@missouriate.edu). Include a short description of the academic or business reason you are requesting VPN access.

To use the Passport VPN, you cannot already be connected to the Missouri State network. The VPN is designed to allow those not currently on the network a secure connection to the network.
