

# How to Create a Navigation Block

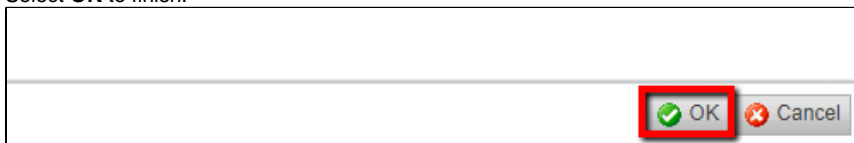

Follow these step-by-step instructions for creating a navigation block in Web Press.

## Step-by-step guide

1. Select the **Open Web Page** dot.
2. Determine whether you want to create a navigation block in the **local** navigation area or the **global** navigation area.
  - **Local** navigation  
Select the **Edit navigation for this page** dot.
  - **Global** navigation  
Select the **Edit site-wide navigation** dot.
3. Select **Create and Connect Page**.

4. Select **OK** to finish.

### Next step

Refer to our [how to edit the group heading of a navigation block](#) article for instructions on setting the heading for your navigation block.
