

How to Set Row Visibility

You can control which Grade Center rows you see by editing the Row Visibility. This is useful when trying to grade a select group and individual students' grades, and when discussing grades with a student to hide other students' grades.

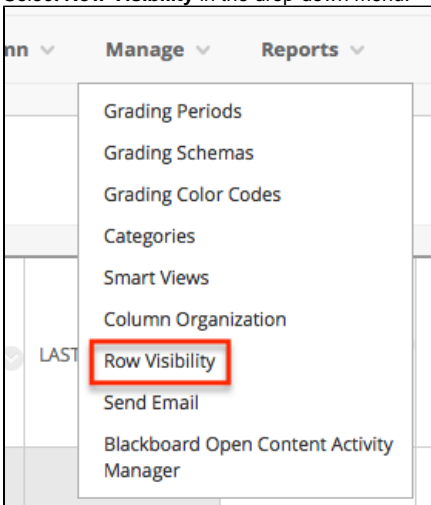

Step-by-step guide

Managing row visibility in the grade center

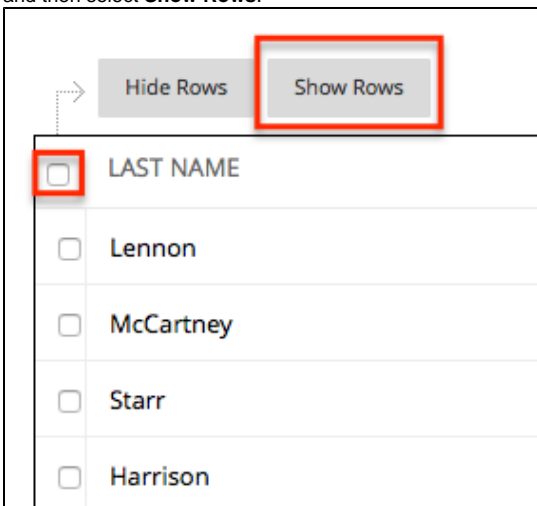

1. Click **Full Grade Center** under the Grade Center menu on the Control Panel.

2. Select **Manage** at the top of the page.
3. Select **Row Visibility** in the drop-down menu.

4. First, make sure all students are visible by clicking the **select all** box at the top left of the page and then select **Show Rows**.

5. Select the check box next to all students you want to hide, then click **Hide Rows**.
6. Click **Submit**.
