

How to Change Group Permissions

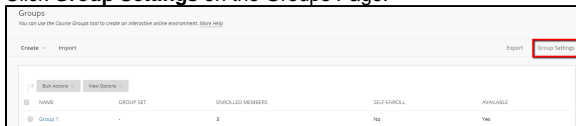

By default, students can create Groups if they have access to the Groups tool. To resolve this, change settings for Groups in the Groups tool.

Step-by-step guide

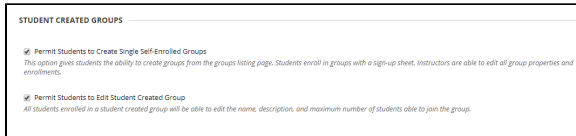

1. Click on **Users and Groups** in your **Control Panel**. Then click on **Groups**.

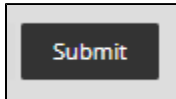

2. Click **Group Settings** on the Groups Page.

3. Add or remove the check marks from both boxes.

4. Click **Submit**.
