

How to Clear Cache, Cookies, History and Other Browser Data in Internet Explorer

This page is no longer being updated. Please refer to the [Knowledge Base](#) to view the most updated information.

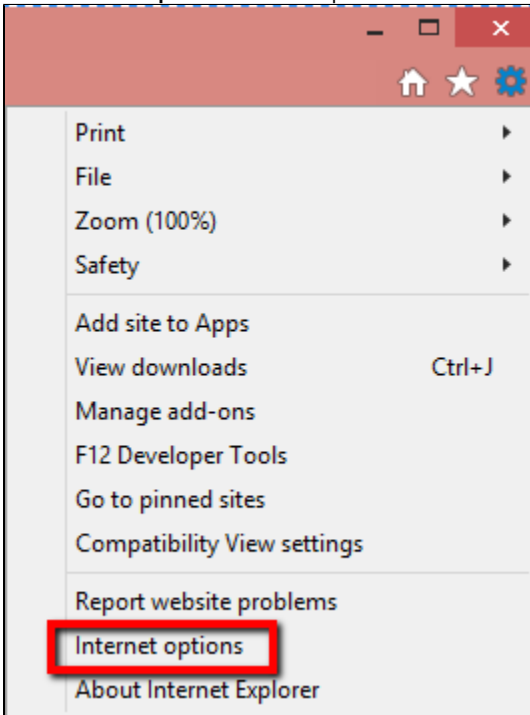

Occasionally, it becomes necessary to clear all the cookies, cached items, and other accumulated stuff that has suddenly rendered your web browser unusable in some way. This guide will walk you through how to clear these items out of your Internet Explorer browser.

Step-by-step guide

1. Click on the Gear Icon at the top right.

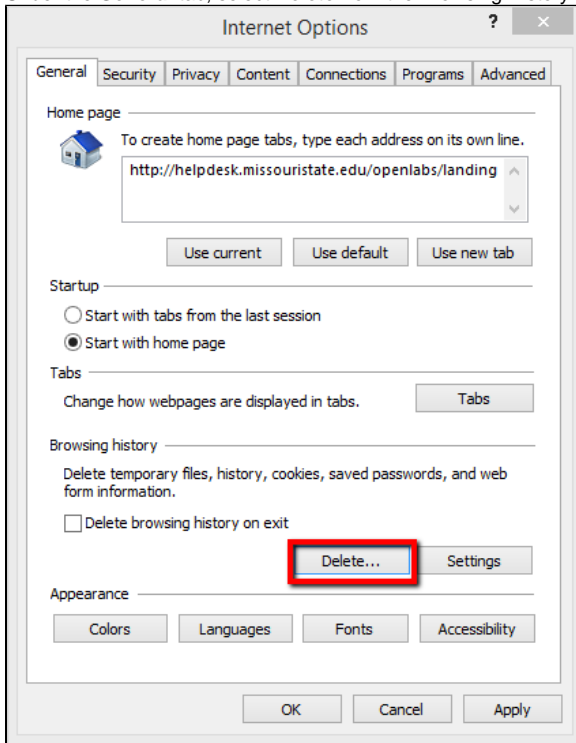

2. Select **Internet Options** from the drop-down menu.

3. Under the **General** tab, select **Delete** from the Browsing History section.

4. Check the boxes for **Temporary Internet files and website files**, **Cookies and website data**, and **History**. Then click **Delete**.

You have successfully cleared your cache, cookies, and other browser data.
